Joint Media Release Advice

'EnviroMission Signs Hensel Phelps as US Solar Tower Contractor'

Joint media release '*EnviroMission Signs Hensel Phelps as US Solar Tower Contractor*' for [EnviroMission Limited \(OTCQX: EVOMY\)](#), and Hensel Phelps Construction Co. follows this cover to confirm the appointment of Hensel Phelps to EnviroMission's Arizona Solar Tower development team.

Hensel Phelps is an employee owned construction management, design builder and general contracting company, established in the United States in 1937 with over 2,100 employees today and annual construction revenues exceeding US \$3 Billion, and bonding capacity that exceeds US \$5 Billion.

Subject to mutual agreement of the project schedule and Guaranteed Maximum Price, Hensel Phelps will be contracted to deliver the Construction Phase Services for the first 200MW Solar Tower power station development in La Paz, Arizona.

Hensel Phelps, Western District Manager and Vice President, Steve Grauer, stated "Hensel Phelps is excited to be the builder and a collaborative team member for EnviroMission's unique and innovative Solar Tower in Arizona."

"Hensel Phelps has assigned a dedicated team to the project and has the Board's commitment of all corporate resources to support the successful completion of the project and will assume all of our pre-construction expenditures through the close of project financing," Mr. Grauer said.

End.

IMMEDIATE RELEASE

EnviroMission Signs Hensel Phelps as U.S. Solar Tower Contractor

Phoenix August 3, 2011 – [EnviroMission Limited \(OTCQX: EVOMY\)](#) has signed United States construction services contractor, Hensel Phelps Construction Co. (Hensel Phelps), to Solar Tower power station development in the United States.

Hensel Phelps has been contracted to provide a Guaranteed Maximum Price and deliver the 200MW Solar Tower power station in La Paz County, Arizona for EnviroMission.

Hensel Phelps, Western District Manager and Vice President, Steve Grauer, stated “Hensel Phelps is excited to be the builder and a collaborative team member for EnviroMission’s unique and innovative Solar Tower in Arizona.”

“Hensel Phelps has assigned a dedicated team to the project and has the Board’s commitment of all corporate resources to support the successful completion of the project and will assume all of our pre-construction expenditures through the close of project financing,” Mr. Grauer said.

EnviroMission CEO, Roger Davey, applauded the appointment of Hensel Phelps as a “project maker!”

“Infrastructure developments of the scale of EnviroMission’s proposed 200MW Solar Tower require such specialized capabilities and resources as those identified and readily available at Hensel Phelps.

EnviroMission looks forward to working with Hensel Phelps to deliver the world’s first Solar Tower power station in the United States.

Hensel Phelps’ proven processes and procedures, and track record of delivering challenging, diverse, and complex projects will bring the necessary level of expertise to Solar Tower development,” said Mr. Davey.

Hensel Phelps construction services expertise has delivered major projects including the renovation of the Pentagon, rocket launch facilities at Cape Canaveral and Vandenberg Air Force Base, numerous hospitality, healthcare, industrial, commercial and transportation projects, including San Jose and Denver International Airport’s plus the People Mover systems at DFW International Airport in Texas and the PHX Sky Train at Phoenix Sky Harbor International Airport as well as American Embassy projects in Berlin, Germany and Cape Town, South Africa.

Hensel Phelps’ continued commitment to the environment and sustainable projects has resulted in over eighty projects completed or in progress being LEED certified, resulting in the company being recognized as a leader in eco-friendly projects, employing at least 350 LEED Accredited Professionals.

Hensel Phelps is an employee owned construction management, design builder and general contracting company, established in the United States in 1937 with over 2,100 employees today, annual construction revenues exceeding \$3 Billion and bonding capacity that exceeds \$5 Billion.
